SUMMARY

Product UI designer with 9+ years across SaaS, fintech, AI, media and games. I own the full cycle: research, UX, high-fidelity UI, design systems, prototypes, design QA and production HTML/CSS shipped through AI pipelines (Cursor, Claude Code, n8n). Results: 60% faster design handoff, 40% conversion lift on a mature SaaS platform, brand launch in 5 minutes on a white-label system.

SKILLS

- **UI/UX:** visual hierarchy, typography, dense interfaces, responsive design, accessibility (WCAG), information architecture, user flows, wireframes, prototyping, micro-interactions.
- **Design systems:** Figma variables, tokens, components, auto layout, documentation, governance, Storybook.
- **Handoff and QA:** specs, component libraries, design QA with engineering, Figma to code.
- **Fullstack UI:** HTML/CSS, React, Flutter, Tilda, Webflow; fast export to Tilda/Webflow; Git, GitHub Pages, deploy pipelines; Figma → Cursor / Claude Code workflows.
